

ROYAL OIL CO.

SPECIALTY LUBRICANTS

GREEN FURY

Versatile, All-Purpose Cleaner

Safe Product to Use/Handle

Extremely Cost Efficient

Penetrates and Lifts Soils

Rinses Easily

Safe On Virtually Any Surface

pH 8.9

“Add a case or pail of cleaner to an order of grease. Everyone utilizes a cleaner and I can assure you, the effectiveness and cost of use is second to none. One pail can make up to three drums of finished product!”

In our industry, our customer's equipment is an extension of the business itself and everyone is aware that keeping it clean is important. To compound things, most in our industry operate in dirty working conditions so maintaining equipment or a shop can be a challenge. GREEN FURY is an excellent multi-use cleaner. Designed to combat road grime and heavy soils, it is also safe enough to use as a general-purpose cleaner. With extremely efficient mix rates (beginning at 4oz per gallon of water), you will not find a better cleaner for the investment

-	Color	Green	
-	Appearance	Clear, Transparent	

HEAVY DUTY EQUIPMENT CLEANING

Use 1 to 3 ounces of GREEN FURY to one gallon cold or warm water, depending on soil. Apply solution to pre-rinsed equipment— allow to set approximately 5 minutes. Swab heavily soiled areas with brush, then rinse clean. Safe for car and truck finishes; fast, inexpensive cleaner that rinses free.

REGULAR MAINTENANCE

For inexpensive— only pennies per gallon— yet effective cleaning, use one ounce GREEN FURY to one gallon of cold or hot water. Does not stain or leave dulling soap scum.

GREASY OR HEAVILY SOILED CONCRETE FLOORS

For a powerful combination of wetting, penetrating and emulsifying action, thoroughly mix one part GREEN FURY with one part kerosene type solvent, then add an additional parts of the kerosene type solvent. After applying, soaking and scrubbing where necessary , surface is quickly rinsed clean with a pressure hose (the mixture is combustible).

STEAM CLEANING

Use one part GREEN FURY with 25 to 50 parts cold water, depending upon the job. Safe, odorless, non-caustic cleaning for metals.

INDUSTRIAL EQUIPMENT CLEANING AND DEGREASING

Using a kerosene type solvent, prepare a mixture as outlined for concrete floors. Spray or brush on surface and allow to stand 15 minutes. Equipment requires no heating, but may be warm. Rinse clean and air hose when available. (This mixture is

Sharing lubricant knowledge and delivering the highest quality products, two things we promise our customers. The difference will change how you view, purchase and utilize greases and oils from here forward.
